

To help us help you have a very special day

The priest, bell ringers and choir (if you have them) may have other commitments and we do not want to have to rush this special day

When considering time you may want to consider the following:

Have a dress rehearsal with wedding outfits so there are no last minute glitches

Try and have someone at the church with whom you can liaise by mobile if there is a problem such as traffic, accident, illness, dress malfunction! eg best man

Remember that when arriving at church photos can take at least 5 minutes before you get to the church
